Dr. Mahadevan C K

My Sixteen Useful Thoughts

Living beings classified into six

First five sub-classified into several

Man denoted by the sixth sense

Man not sub-classified but unique

A man is born when soul is added to body

But is dead when soul is removed from body

We believe in the existence of God
Never visualized the shape of God
But can understand the form of God
Omnipresent and omnipotent Energy as God
Energy is fundamental to this Universe
So the God is fundamental to this Universe

It is better to be not believing in God
Than doing evils in the name of God
Because doing evils is the act of Demons
Which is against the wish of real God

All major religions try to unite all People of the World
Encourage true love and affection with each other
Advocate all to believe in God in true sense
And in all aspects the rich to uplift the poor

The Saints like Alwars and Nayanmars
Are People who have been considered great
Not by birth but by their good behavior
But people like Demons are more powerful
But are notorious and never considered great

To be great a person aspires
Will be great if effectively tries
With a mind which worships God
And without thinking to others bad

It is better to have little useful knowledge

Than to have much death-time knowledge

There is no end to heart-felt love and affection
But no continuation to lip-felt love and affection

Even a star is small for us
Since it is far away from us
So, without understanding properly others
Feel not you are superior or inferior to others

Educated, gentle and decent person
Will never consider another a fool
But a fool will do

Selfishness and pseudo-status are
The fundamental reasons for all
Social problems in this World

All social problems in this World
Can easily be solved
If there exist in every person
To others true love and affection

The real development of any Country
Lies in how far is developed the Country
In education, wealth, health and culture

A Country is expected to become great
If all People are treated equally without

Lingual, religious and regional fanaticism
And provided with free health and education

Bias and prejudice may not lead to
Proper judgements in judicial courts
Proper conclusions in research works
Proper outcomes in social doings

Mahadevan C K

Mahadevan (CSIR Emeritus Scientist in Bharathidasan University, Tamil Nadu) has obtained Ph.D., D.Sc., etc. degrees in Physics, and has been in teaching and research for about 42 years; published 14 books/chapters, and 412 articles in international/national journals/proceedings; guided 116 pre-doctoral, 41 doctoral, and 3 post-doctoral Scholars in Solid State Materials Science; availed 12 funded projects; organized 11 conferences, delivered 82 invited talks, and made 597 presentations in conferences; featured in “World Ranking of Top 2% Scientists” continuously in 2021, 2022, and 2023 databases; and won several coveted awards for book authorship, teaching, and scientific research from Tamil Nadu state Government, UGC, IACG, KAAS, SAA, etc.

Get Your Book Reviewed

If you have got any book published and are looking for a book review, contact us. We provide book review writing service for a fee. We (1) write book review (2) publish review in CLRI (3) conduct an interview with the author (4) publish interview in CLRI. [Know more here](#)

Authors & Books

We publish book releases, Press Release about books and authors, book reviews, blurbs, author interviews, and any news related to authors and books for free. We welcomes authors, publishers, and literary agents to send their press releases. Visit our website <https://page.co/Vw17Q>.
